DETAILED ACTION

Note: This is in response to Amendment filed 10/10/2007.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 1. Claims 103-116 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Bell et al. (U.S. 5,891,558).

Bell et al reference discloses throughout the specification the method steps as recited in the claims such as making a prosthesis (foam graft) which comprises the steps of extruding a thermoplastic elastomer with the aid of physical and chemical blowing agents to produce a foamed graft.

Response to Arguments

- 2. Applicant's arguments, see remarks, filed 10/10/2007, with respect to the rejection(s) of claim(s) 102 under Brady et al have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of Bell et al. '558.
- 3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kevin T. Truong whose telephone number is 571-272-4705. The examiner can normally be reached on Monday-Thursday from 8:00 AM to 6:00 PM..
